Density video worksheet

1. Density is a measure of how packed the material is with (circle) **mass / weight / stuff**
2. Density is the _____ of an object per it's unit _____
3. High density means **lots of mass / not much mass** in a **large volume / small volume**
4. Objects least to most dense: _____, _____, _____
5. Which is more dense, milk or vegetable oil? _____
6. And object will be more dense if the molecules are packed more **tightly / loosely**

Why do some things sink in water?

_____

Why does a helium balloon rise?

_____

Why does hot air rise?

_____
