Solids, Liquids and Gases

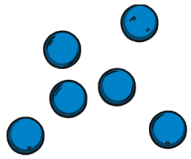

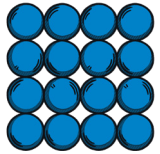

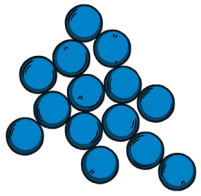

Draw lines between the boxes to match the features and diagrams.

Solid		• Are far apart. • Have a large amount of energy. • Move rapidly in all directions.
Liquid		• Are very close together. • Have a small amount of energy. • Vibrate.
Gas		• Are close together. • Have a large amount of energy. • Vibrate and can change places.

BEYOND SCIENCE

Solids, Liquids and Gases

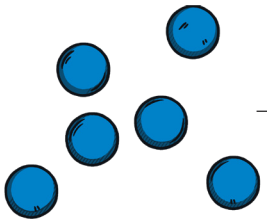

Draw lines between the boxes to match the features and diagrams.

Solid		• Are far apart. • Have a large amount of energy. • Move rapidly in all directions.
Liquid		• Are very close together. • Have a small amount of energy. • Vibrate.
Gas		• Are close together. • Have a large amount of energy. • Vibrate and can change places.

Solids, Liquids and Gases - **Answer Sheet**

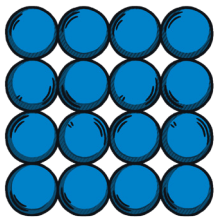

Draw lines between the boxes to match the features and diagrams.

Solid

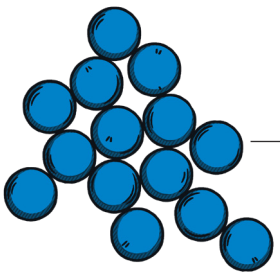

- Are far apart.
- Have a large amount of energy.
- Move rapidly in all directions.

Liquid

- Are very close together.
- Have a small amount of energy.
- Vibrate.

Gas

- Are close together.
- Have a large amount of energy.
- Vibrate and can change places.
