Describe:

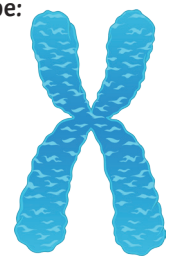

## DNA

without using the words:

1. deoxyribonucleic acid
2. base pairs
3. double helix
4. genes
5. parents

twinkl.co.uk

Describe:

## chromosome

without using the words:

1. 23 pairs
2. parent
3. gamete
4. nucleus
5. cell

twinkl.co.uk

Describe:

## gene

without using the words:

1. DNA section
2. characteristic
3. chromosome
4. genome
5. parents

twinkl.co.uk

Describe:

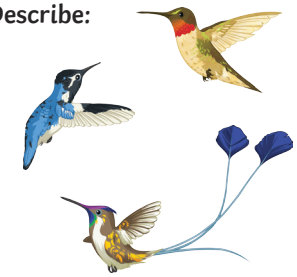

## variation

without using the words:

1. different
2. continuous
3. discontinuous
4. inherited
5. environmental

twinkl.co.uk

Describe:

## species

without using the words:

1. similar
2. breed
3. fertile
4. offspring
5. organism

twinkl.co.uk

Describe:

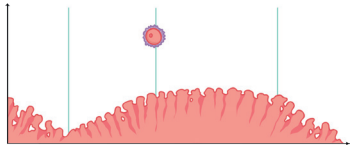

## selective breeding

without using the words:

1. species
2. characteristics
3. human intervention
4. variation
5. reproduce

twinkl.co.uk

Describe:

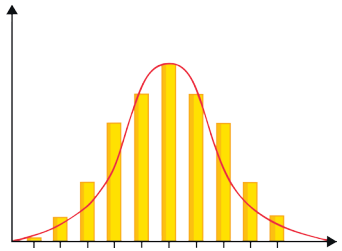

## fertile

without using the words:

1. produce
2. offspring
3. infertile
4. reproduce
5. babies

twinkl.co.uk

Describe:

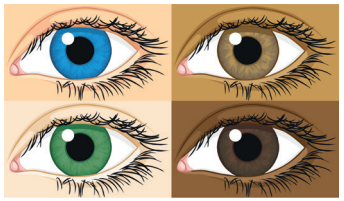

## continuous variation

without using the words:

1. range
2. intermediate
3. wide
4. measured
5. extremes

twinkl.co.uk

Describe:

## discontinuous variation

without using the words:

1. categories
2. difference
3. individuals
4. blood groups

twinkl.co.uk

Describe:

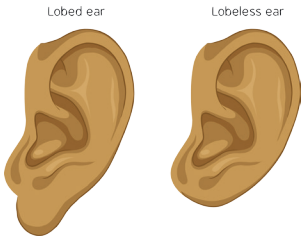

## environmental variation

without using the words:

1. changes
2. differences
3. surroundings
4. phenotype

twinkl.co.uk

Describe:

## inherited variation

without using the words:

1. genetic
2. variation
3. difference
4. parents
5. characteristics

twinkl.co.uk

Describe:

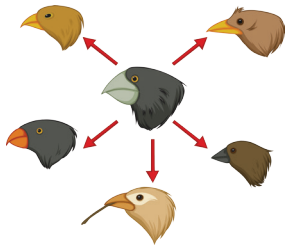

## natural selection

without using the words:

1. Charles Darwin
2. survival of fittest
3. adaptation
4. variation
5. strongest

twinkl.co.uk

Describe:

## evolution

without using the words:

1. Charles Darwin
2. survival of fittest
3. change
4. generations
5. offspring

twinkl.co.uk

Describe:

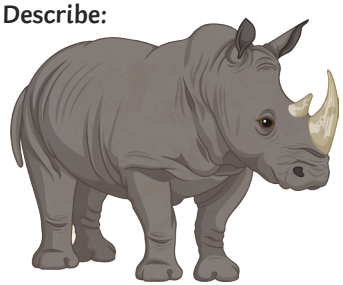

## extinction

without using the words:

1. disease
2. predation
3. gone
4. dinosaurs
5. none left

twinkl.co.uk

Describe:

## endangered

without using the words:

1. risk
2. extinction
3. hunting
4. disease
5. few

twinkl.co.uk

Describe:

## biodiversity

without using the words:

1. wide
2. range
3. variety
4. species
5. different

twinkl.co.uk
