Describe:

periodic table

without using the words:

1. elements
2. metal
3. non-metal
4. group
5. period

twinkl.co.uk

Describe:

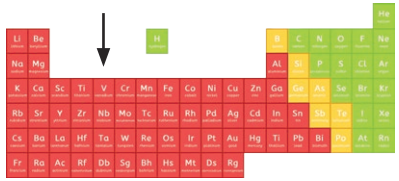

element

without using the words:

1. natural
2. periodic table
3. order
4. group
5. period

twinkl.co.uk

Describe:

group

without using the words:

1. vertical
2. column
3. down
4. reactivity
5. 1-8

twinkl.co.uk

Describe:

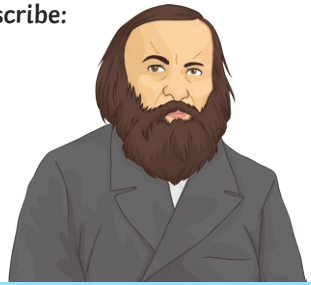

period

without using the words:

1. horizontal
2. row
3. across
4. line
5. increasing

twinkl.co.uk

Describe:

Mendeleev

without using the words:

1. periodic table
2. elements
3. Russian
4. Dmitri
5. scientist

twinkl.co.uk

Describe:

metal

without using the words:

1. left
2. magnetic
3. shiny
4. conduct
5. transition

twinkl.co.uk

Describe:

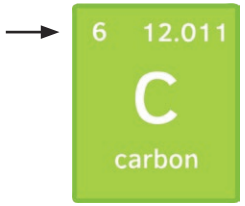

non-metal

without using the words:

1. right
2. dull
3. brittle
4. low density
5. not sonorous

twinkl.co.uk

Describe:

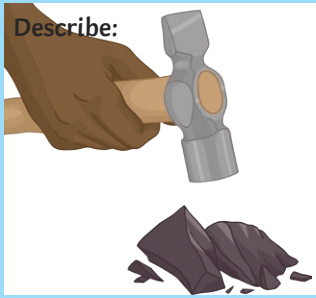

atomic number

without using the words:

1. protons
2. nucleus
3. atom
4. order
5. ascending

twinkl.co.uk

Describe:

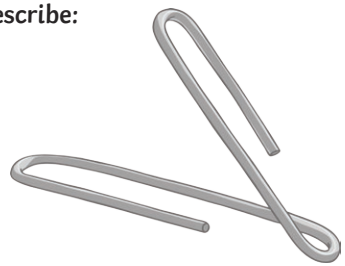

brittle

without using the words:

1. broken
2. easily
3. non-metal
4. fragile
5. shatter

twinkl.co.uk

Describe:

malleable

without using the words:

1. shaped
2. hammered
3. doesn't break
4. metal
5. pressed

twinkl.co.uk

Describe:

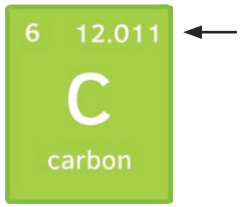

conductor

without using the words:

1. charge
2. electricity
3. heat
4. insulator
5. metal

twinkl.co.uk

Describe:

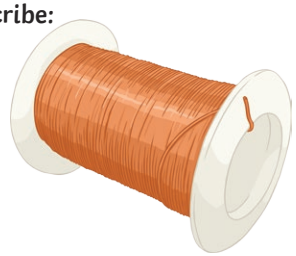

atomic mass

without using the words:

1. protons
2. neutrons
3. nucleus
4. particle
5. periodic table

twinkl.co.uk

Describe:

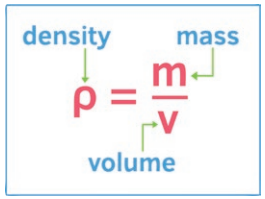

ductile

without using the words:

1. stretch
2. wires
3. strong
4. metal
5. conduct

twinkl.co.uk

Describe:

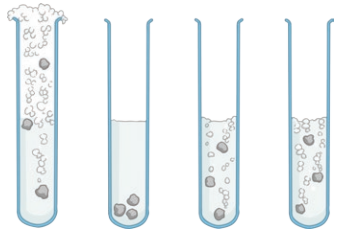

density

without using the words:

1. ratio
2. mass
3. volume
4. heavy
5. grams

twinkl.co.uk

Describe:

reactive

without using the words:

1. chemical
2. groups
3. response
4. increasing
5. similar

twinkl.co.uk

Describe:

insulator

without using the words:

1. conduct
2. charge
3. heat
4. electricity
5. non-metal

twinkl.co.uk
