Describe:

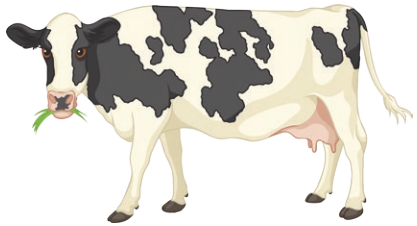

producer

without using the words:

1. green
2. plant
3. makes
4. food
5. photosynthesis

twinkl.com

Describe:

consumer

without using the words:

1. eat
2. food
3. obtain
4. energy
5. organism

twinkl.com

Describe:

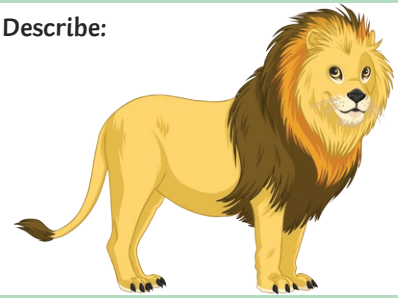

herbivore

without using the words:

1. plants
2. vegetarian
3. meat
4. animal
5. feed

twinkl.com

Describe:

carnivore

without using the words:

1. meat
2. fish
3. plants
4. flesh
5. animal

twinkl.com

Describe:

omnivore

without using the words:

1. meat
2. fish
3. plants
4. animal
5. both

twinkl.com

Describe:

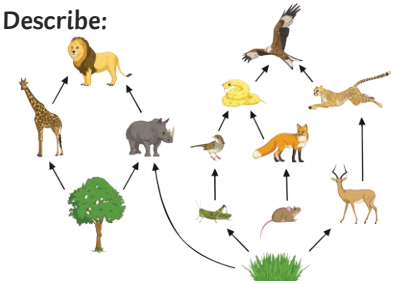

biodiversity

without using the words:

1. biological
2. diverse
3. different
4. species
5. variation

twinkl.com

Describe:

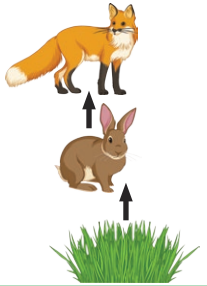

interdependence

without using the words:

1. food web
2. dependent
3. need
4. organism
5. rely

twinkl.com

Describe:

food chain

without using the words:

1. sequence
2. feeding
3. relationship
4. organism
5. energy

twinkl.com

Describe:

environment

without using the words:

1. surrounding
2. conditions
3. living
4. organism
5. around

twinkl.com

Describe:

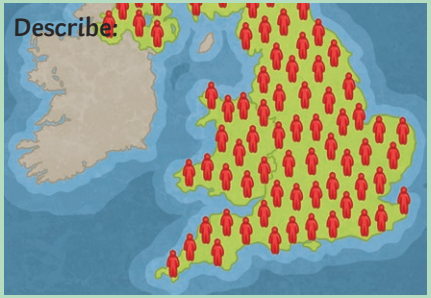

habitat

without using the words:

1. place
2. organisms
3. live
4. environment
5. community

twinkl.com

Describe:

population

without using the words:

1. member
2. species
3. live
4. habitat
5. geographical

twinkl.com

Describe:

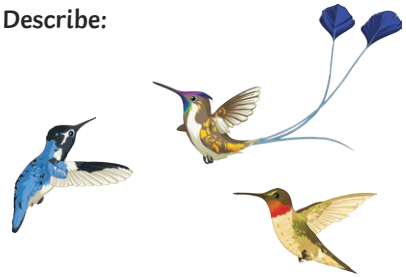

community

without using the words:

1. population
2. different
3. organism
4. habitat
5. live

twinkl.com

Describe:

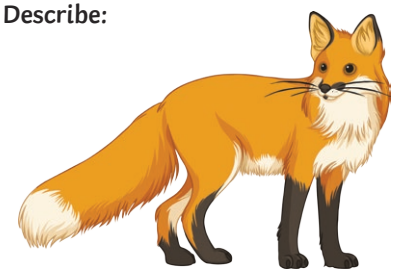

species

without using the words:

1. classification
2. living
3. organism
4. related
5. reproduce

twinkl.com

Describe:

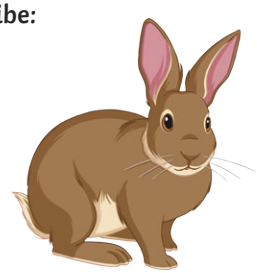

predator

without using the words:

1. animal
2. hunt
3. kill
4. animals
5. food

twinkl.com

Describe:

prey

without using the words:

1. organism
2. predator
3. kill
4. food
5. victim

twinkl.com

Describe:

ecosystem

without using the words:

1. community
2. animal
3. plant
4. microorganism
5. habitat
