Describe:

respiratory system

without using the words:

1. lungs
2. breathe
3. respiration
4. oxygen
5. carbon dioxide

twinkl.co.uk

Describe:

alcohol

without using the words:

1. depressant
2. wine
3. beer
4. spirit
5. ethanol

twinkl.co.uk

Describe:

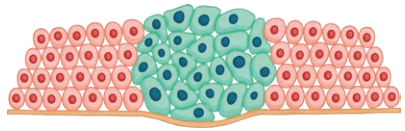

addictive

without using the words:

1. habit
2. dependent
3. alcohol
4. nicotine
5. drugs

twinkl.co.uk

Describe:

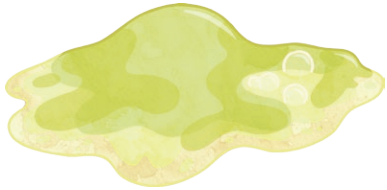

cancer

without using the words:

1. disease
2. abnormal
3. cell
4. uncontrolled
5. growth

twinkl.co.uk

Describe:

mucus

without using the words:

1. slimy
2. white
3. protein
4. respiratory tract
5. alimentary canal

twinkl.co.uk

Describe:

nicotine

without using the words:

1. cigarette
2. cigar
3. smoke
4. addictive
5. tobacco

twinkl.co.uk

Describe:

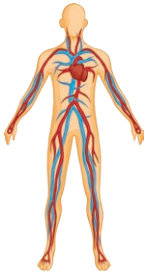

drug

without using the words:

1. substance
2. change
3. chemical
4. reaction
5. body

twinkl.co.uk

Describe:

circulatory system

without using the words:

1. blood
2. vessel
3. heart
4. glucose
5. oxygen

twinkl.co.uk

Describe:

depressant

without using the words:

1. slows
2. messages
3. brain
4. alcohol
5. drugs

twinkl.co.uk

Describe:

stimulant

without using the words:

1. caffeine
2. speed up
3. messages
4. brain
5. nicotine

twinkl.co.uk

Describe:

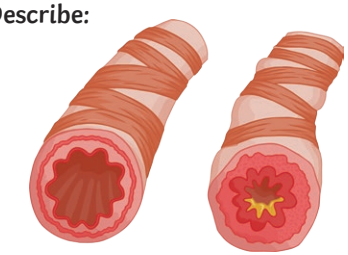

smoking

without using the words:

1. cigarette
2. harmful
3. tobacco
4. tar
5. nicotine

twinkl.co.uk

Describe:

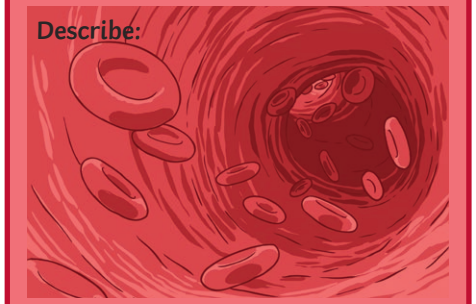

asthma

without using the words:

1. disease
2. respiratory system
3. bronchioles
4. inflamed
5. constricted

twinkl.co.uk

Describe:

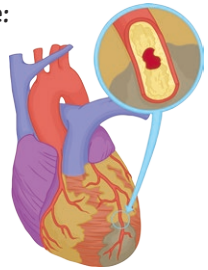

red blood cells

without using the words:

1. oxygen
2. carbon dioxide
3. iron
4. haemoglobin
5. transport

twinkl.co.uk

Describe:

heart disease

without using the words:

1. deadly
2. affect
3. heart
4. nicotine
5. blood vessels

twinkl.co.uk

Describe:

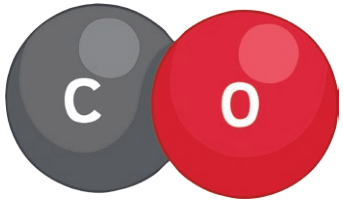

alveoli

without using the words:

1. tiny
2. air
3. sacs
4. gas exchange
5. breathing

twinkl.co.uk

Describe:

carbon monoxide

without using the words:

1. gas
2. oxygen
3. red blood cell
4. reduce
5. circulatory system
