Describe:

mixture

without using the words:

1. two or more
2. elements
3. joined
4. separated
5. easily

twinkl.com

Describe:

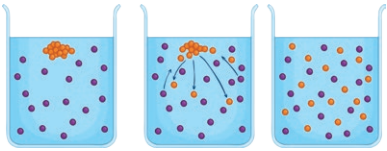

separate

without using the words:

1. mixture
2. filter
3. divide
4. two or more
5. apart

twinkl.com

Describe:

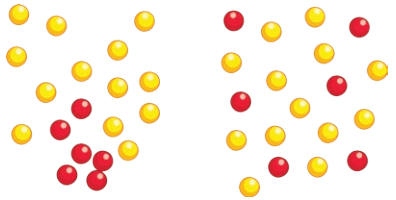

dissolve

without using the words:

1. mixture
2. liquid
3. solution
4. solute
5. solvent

twinkl.com

Describe:

diffusion

without using the words:

1. movement
2. particles
3. high
4. concentration
5. lower

twinkl.com

Describe:

filtration

without using the words:

1. separate
2. funnel
3. solid
4. liquid
5. filtrate

twinkl.com

Describe:

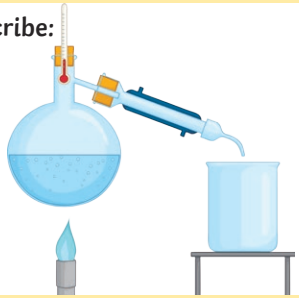

evaporation

without using the words:

1. liquid
2. gas
3. heat
4. random
5. particle

twinkl.com

Describe:

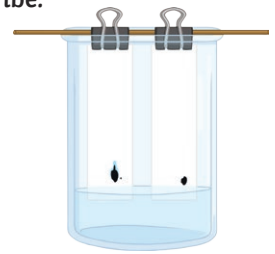

distillation

without using the words:

1. separate
2. component
3. liquid
4. evaporation
5. condensation

twinkl.com

Describe:

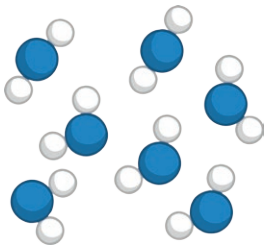

chromatography

without using the words:

1. separate
2. ink
3. paper
4. colour
5. dots

twinkl.com

Describe:

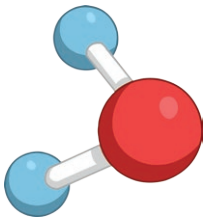

compound

without using the words:

1. chemical
2. join
3. two or more
4. element
5. water

twinkl.com

Describe:

element

without using the words:

1. one type
2. atom
3. periodic table
4. pure
5. molecule

twinkl.com

Describe:

impure

without using the words:

1. two or more
2. elements
3. mixture
4. compound
5. atom

twinkl.com

Describe:

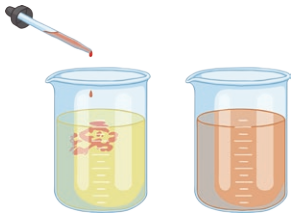

pure

without using the words:

1. clean
2. unsullied
3. single
4. element
5. nothing else

twinkl.com

Describe:

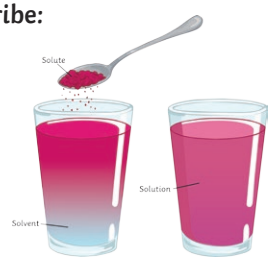

solvent

without using the words:

1. liquid
2. solute
3. dissolve
4. solution
5. water

twinkl.com

Describe:

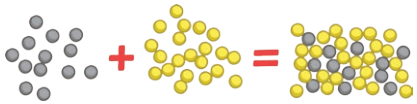

solute

without using the words:

1. dissolved
2. substance
3. solution
4. solid
5. mixture

twinkl.com

Describe:

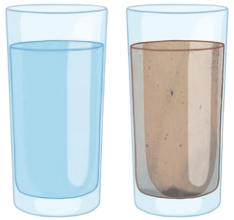

solution

without using the words:

1. solute
2. solvent
3. mixture
4. dissolve
5. liquid

twinkl.com

Describe:

substance

without using the words:

1. pure
2. impure
3. matter
4. solid
5. properties
