Describe:

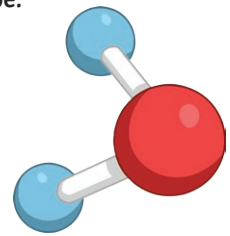

attraction

without using the words:

1. two or more
2. together
3. opposite
4. repel
5. poles

Describe:

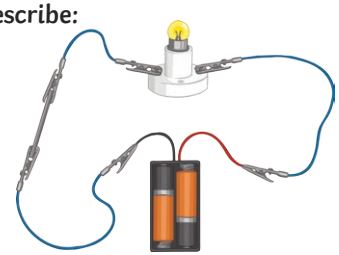

atom

without using the words:

1. element
2. nucleus
3. proton
4. neutron
5. electron

Describe:

charge

without using the words:

1. force
2. positive
3. negative
4. repel
5. attract

Describe:

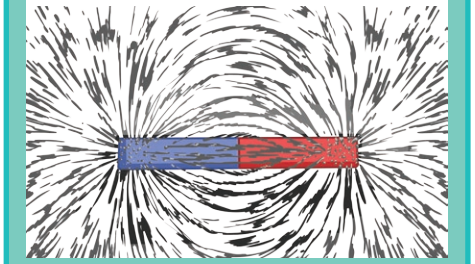

repel

without using the words:

1. push
2. apart
3. attract
4. opposite
5. magnet

Describe:

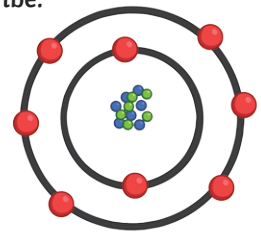

electric field

without using the words:

1. area
2. surrounding
3. charge
4. influence
5. particle

Describe:

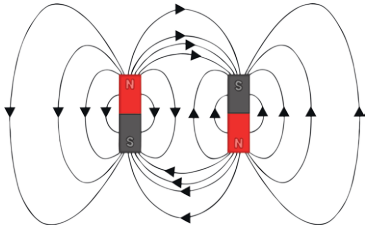

electron

without using the words:

1. sub-atomic
2. particle
3. negative
4. charge
5. negligible mass

Describe:

non-contact force

without using the words:

1. exert
2. objects
3. not touching
4. force
5. gravity

Describe:

static electricity

without using the words:

1. electric
2. charge
3. accumulate
4. object
5. friction
