The **Earth**

1. Label the cross-sectional diagram of the Earth shown below. [4]

2. Which metals does the Earth's core contain? Circle your answers below [1]

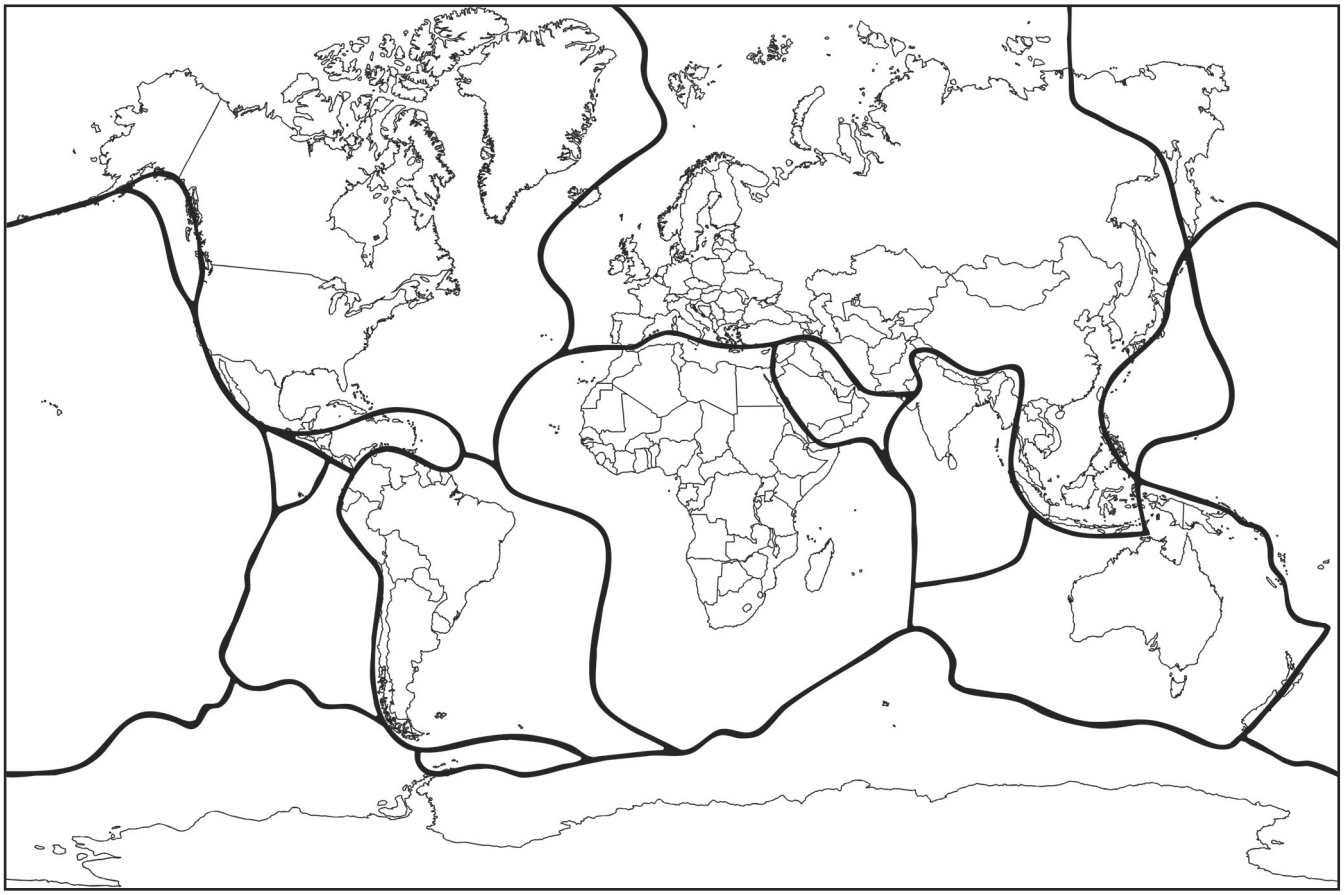

iron	copper	cobalt	quartz	nickel

3. Put these four components of the Earth's crust in order of size, starting with the smallest. [3]

A	minerals	1. _____
B	compounds	2. _____
C	elements	3. _____
D	rocks	4. _____

twinkl.co.uk

4. The diagram below shows how the Earth's crust is divided.

a. What is the name given to the parts that the Earth's crust is divided into, as shown in the diagram? [1]

_____

b. Circle all the events/features below that can be caused by the movement of the Earth's crust. [2]

tidal flow	canyons	volcanoes
sinkholes	earthquakes	mountains

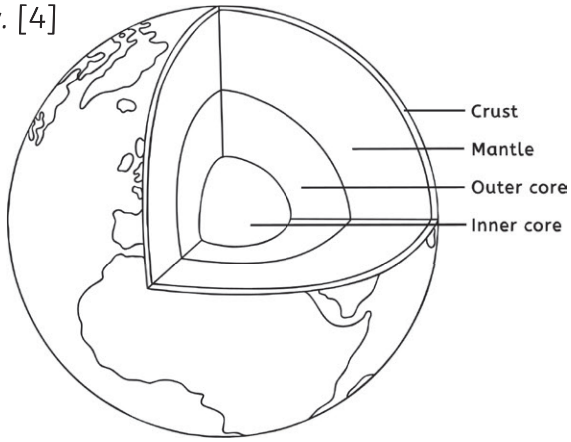

Learning Outcomes (tick if achieved)

Q1	I can label the layers of the Earth	
Q2,3	I can describe the composition of the Earth	
Q4	I can describe the Earth's crust	

twinkl.co.uk

The Earth **Answers**

1. Label the cross-sectional diagram of the Earth shown below. [4]

2. Which metals does the Earth's core contain? Circle your answers below [1]

iron	copper	cobalt	quartz	nickel

3. Put these four components of the Earth's crust in order of size, starting with the smallest. [3]

A	minerals	1. **C**	
B	compounds	2. **B**	
C	elements	3. **A**	
D	rocks	4. **D**	**(1 mark each: C before B, B before A, A before D)**

4. a. What is the name given to the parts that the Earth's crust is divided into, as shown in the diagram? [1]

Tectonic plates

b. Circle all the events/features below that can be caused by the movement of the Earth's crust. [2]

tidal flow	canyons	volcanoes
sinkholes	earthquakes	mountains
