Making a **Model of a Cell**

Pick a cell: a typical plant cell OR a typical animal cell.
Build a simple model of your chosen cell.

Stuck for ideas?
You might create your model:

- With layers of coloured paper or collage
- Using recyclable materials, such as cereal boxes or card tubes
- Using different sweets to represent the parts

Once you have built your model complete the questions below.

I have made a _____ cell.

Organelle name	Present? ✓ or ✘	Represented by:
Cell membrane		
Cell wall		
Chloroplast		
Cytoplasm		
Mitochondria		
Nucleus		
Vacuole		

I think my cell model is a good representation because...

_____

To improve my model I might...

Making a Model of a Cell **Answers**

I have made a **plant** cell.

Organelle name	Present? ✓ or ✘	Represented by:
Cell membrane	✓	See student model
Cell wall	✓	See student model
Chloroplast	✓	See student model
Cytoplasm	✓	See student model
Mitochondria	✓	See student model
Nucleus	✓	See student model
Vacuole	✓	See student model

I have made a **animal** cell.

Organelle name	Present? ✓ or ✘	Represented by:
Cell membrane	✓	See student model
Cell wall	✘	See student model
Chloroplast	✘	See student model
Cytoplasm	✓	See student model
Mitochondria	✓	See student model
Nucleus	✓	See student model
Vacuole	✘	See student model

I think my cell model is a good representation because...

Accept any appropriate student response related to their individual model

To improve my model I might...

Accept any appropriate student response related to their individual model
