Describe:

force

without using the words:

1. push
2. pull
3. newton
4. direction
5. shape

twinkl.co.uk

Describe:

push

without using the words:

1. force
2. pull
3. opposite
4. newtons
5. pressure

twinkl.co.uk

Describe:

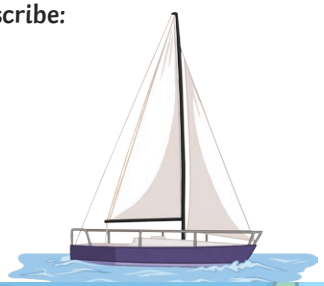

pull

without using the words:

1. force
2. push
3. opposite
4. newtons
5. closer

twinkl.co.uk

Describe:

upthrust

without using the words:

1. force
2. exert
3. liquid
4. gas
5. floating

twinkl.co.uk

Describe:

speed

without using the words:

1. distance
2. time
3. mph
4. fast
5. velocity

twinkl.co.uk

Describe:

direction

without using the words:

1. north
2. south
3. east
4. west
5. pointing

twinkl.co.uk

Describe:

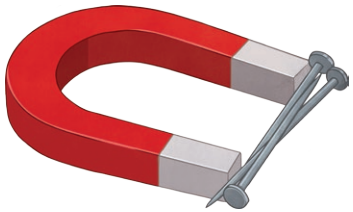

gravity

without using the words:

1. pull
2. earth
3. force
4. orbit
5. weight

twinkl.co.uk

Describe:

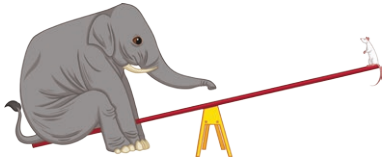

magnetism

without using the words:

1. attraction
2. pull
3. force
4. particle
5. magnetic field

twinkl.co.uk

Describe:

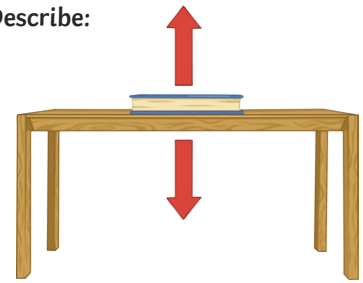

unbalanced

without using the words:

1. total
2. force
3. uneven
4. movement
5. direction

twinkl.co.uk

Describe:

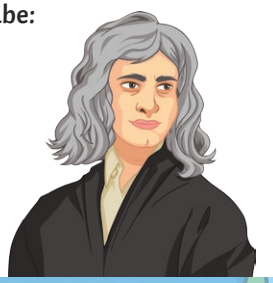

balanced

without using the words:

1. total
2. force
3. opposite
4. equal
5. magnitude

twinkl.co.uk

Describe:

Newton

without using the words:

1. Isaac
2. force
3. unit
4. scientist
5. N

twinkl.co.uk

Describe:

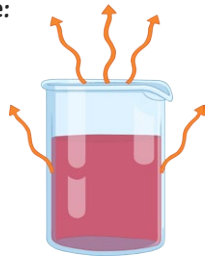

force meter

without using the words:

1. newtons
2. spring
3. hook
4. stretch
5. Isaac Newton

twinkl.co.uk

Describe:

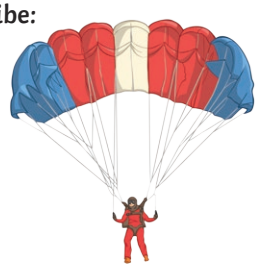

reaction

without using the words:

1. force
2. action
3. opposite
4. movement
5. result

twinkl.co.uk

Describe:

air resistance

without using the words:

1. force
2. particles
3. object
4. moves
5. speed

twinkl.co.uk

Describe:

friction

without using the words:

1. force
2. heat
3. difficult
4. movement
5. resist

twinkl.co.uk

Describe:

weight

without using the words:

1. force
2. pull
3. gravity
4. newtons
5. Earth

twinkl.co.uk
