Student Revision Checklist

Food and Digestion

For your revision, make sure that you are comfortable with each of the following areas of knowledge.

Name the seven different food groups.			
Explain why we need carbohydrates, fats and proteins.			
Give examples of foods rich in carbohydrates, fats and proteins.			
Describe how to test for the presence of fats, carbohydrates and proteins in food.			
List three conditions caused by unhealthy eating.			
State the factors that affect a persons daily energy requirements.			
Name the route taken by food in the digestive system and explain what happens at each stage.			
Define the term enzymes and explain the role played in digestion.			
Say how and where peristalsis occurs.
