Olympic **Speed Calculations**

Calculate the speed for the following Olympic athletes:

$$\textbf{speed} = \frac{\textbf{distance (m)}}{\textbf{Time (s)}}$$

1. Usain Bolt runs 100m in 9.58 secs

2. Mo Farah completes the 100m in 12.9 secs

3. Jessica Ennis Hill completes the 100m hurdles in 12.54 secs

4. The British women 4 x 100m relay team take a new British record in completing the race in 41.81 secs

5. Mo Farah runs the 10,000m in 27.01 mins, what is his average speed in m/secs?
