# ELEMENTS RESEARCH 6

Elements have been discovered at different times and in different ways. There are many different reasons for the names they are given.

Complete the table below. The first element has been done for you.

| Element | Symbol | When and where discovered | Origin of name/symbol |
|---|---|---|---|
| Aluminium | Al | 1826<br>Germany | From the Latin word for alum, '*alumen*'.<br>(Alum is an aluminium compound.) |
| | Ar | | |
| | | 1774<br>Sweden | From the Greek word '*chloros*' meaning 'green light'. |
| Helium | | | |
| | Hg | | |
| | | Ancient | From the Latin word '*sulphurium*'. |
| | U | | |
| Oxygen | | | |
| | | | From the Latin name for Cyprus, '*cuprum*', where this metal was first produced. (Greek = '*Kypros*') |
| | C | | |
