Famous double acts

The following scientists are often named together when we talk of specific discoveries in genetics. For each pair of scientists:

- state the area of research/discovery with which they are associated
- state the time and the place in which they carried out their work
- state one other fact about each scientist.

1 Crick and Watson: _____

2 Sutton and Boveri: _____

3 Darwin and Wallace: _____

4 Hardy and Weinberg: _____

5 Beadle and Tatum: _____

Definitions

Give a brief definition/description of each of the following terms:

6 autosomal _____

7 polypeptide _____

8 evolutionary divergence _____

9 palaeontology _____

10 selective breeding _____
