Task

For each pair of linked keywords write a sentence including them both.

For example:

1. The elements in **Group** 1 of the periodic table are known as the **alkali metals**.

1.	The elements in Group 1 of the periodic table are known as the alkali metals.
2.	
3.	
4.	
5.	
6.	
7.	
8.	
9.	
10.	

Teaching notes

This activity is ideal as a quick starter to recap basic atomic structure and the periodic table.
The resource can be adapted to use different keywords for different topics.

Ideas for differentiation:

- allow free choice to pair different keywords together
- ask students to link more than two keywords together
- change the links between keywords to make them more straightforward or challenging.
