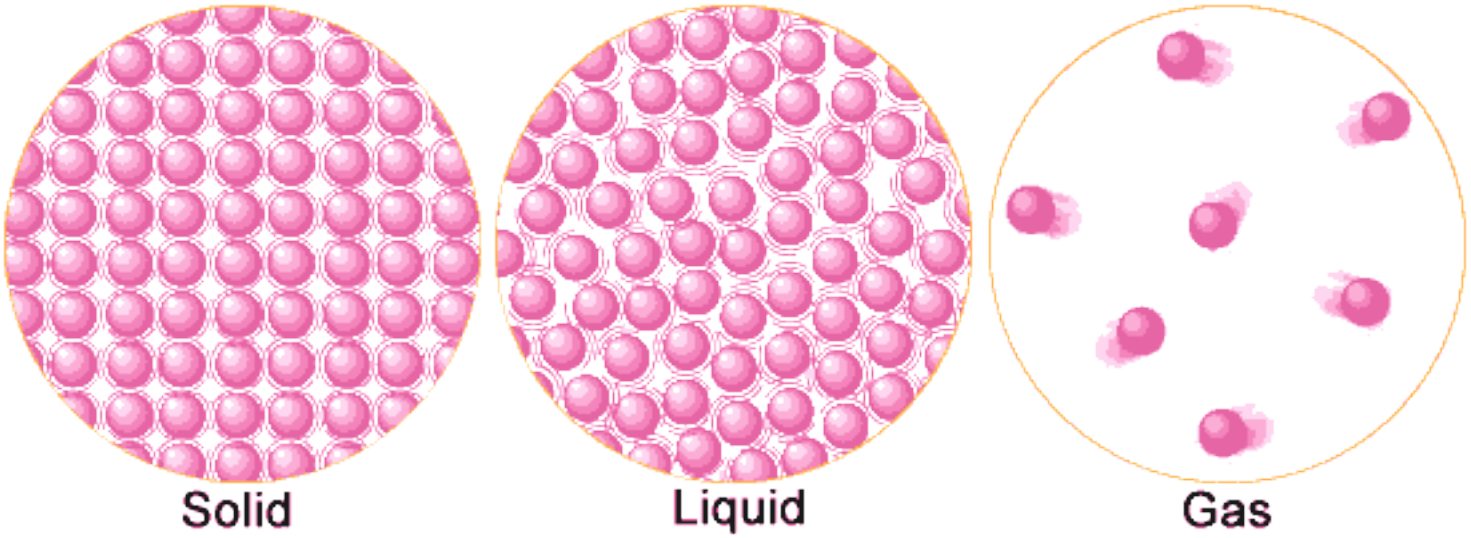
Explanations

Look carefully at the solid, liquid and gas below. Explain what you can see in the picture and how it affects the properties of solids, liquids and gases. Try and use scientific words. Start with the solid.



1. The particles in the solid are so tightly packed that they keep their shape no matter what you put them in.

2. _____
_____
_____
_____

3. _____
_____
_____
_____

4. _____
_____
_____
_____

Remember: This is where you use your scientific knowledge. Don't miss stuff out.
