Descriptions

Look carefully at the particles in the solid, liquid and gas below. Describe what you can see in the picture. **Do not** try and **explain** what you see. Start with the position of the particles.

1. The particles in the solid are packed tightly together.
2. _____

_____

3. _____

_____

4. _____

_____

Remember: Imagine the person you are writing for cannot see anything you can see. Don't miss stuff out and **don't explain!**
