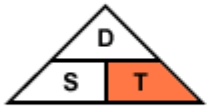
Formulae you might need:

$F = m \times a$ $\quad\quad$ $v = u + at$

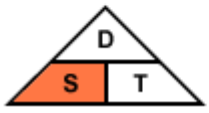
$V_{av} = \frac{s}{t}$ $\quad\quad$ $Wt = m \times g$

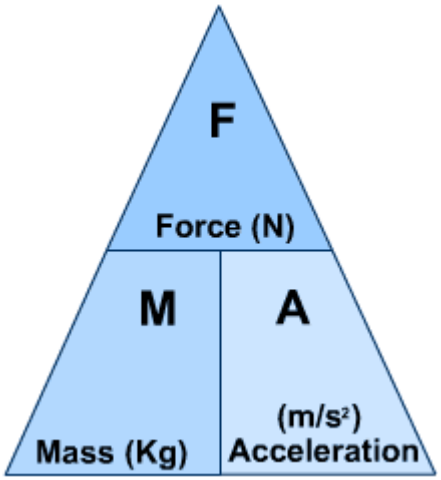
$a = \frac{v-u}{t}$ $\quad\quad$ $g = 9.8\ m\ s^{-2}$

Distance = Speed x Time



$\text{Time} = \frac{\text{Distance}}{\text{Speed}}$





$\text{Speed} = \frac{\text{Distance}}{\text{Time}}$
