Digestion Poster Instructions

Areas to cover:

- Mouth (mechanical and chemical digestion, enzymes involved)
- Oesophagus (action of peristalsis, glottis – choking)
- Stomach (mechanical and chemical digestion, enzymes involved)
- Liver and Gall Bladder (What is their role in digestion)
- Pancreas (What enzymes are released from the pancreas)
- Small Intestine (Structure and how that helps it function)
- Large Intestine (Role of the large intestine)
- The role of enzymes (How do enzymes work – diagram)

What you need to do:

Draw your assigned body piece on to the body template

Make notes on its job and write these up, make them colourful and add pictures

Stick notes on to the body drawing to make a labelled diagram
