Energy Transformations

Activity: For each of the energy transfers fill in the spaces using the words in the box.

A clockwork car

movement stored stored

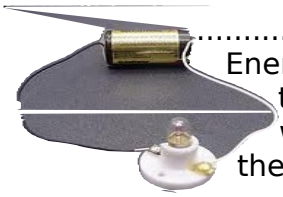

Energy **.....** **..** in my body→ energy..... in the wound-up spring → .....energy of the clockwork car

A battery and a lamp

heat stored light electrical

bulb

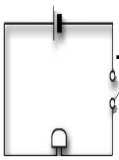

..... Energy ..... in the battery warming up the bulb → .....energy ..... energy of the bulb

A battery and a

sound stored energy electrical

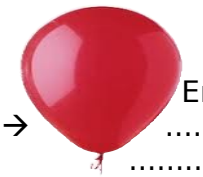

buzzer

→ .. .. in the battery .....energy→ ..... energy of the buzzer

A blown up balloon and then released.

stretched body movement stored

Energy stored in my ..... → energy ..... in the balloon → .....energy ..... of the balloon

A Bunsen burner

light heat gas stored chemical

..... energy lighting up the room ..... energy ..... in the ..... energy of the flame
