_____
_____
_____
_____
_____
_____
_____
_____
_____

7. Name some of the compounds that your element is a part of? Provide the formulae for the compounds. (4 marks)
_____
_____
_____
_____
_____
_____
_____
_____
_____

8. Provide extra interesting information about the element that you researched. (3 marks)

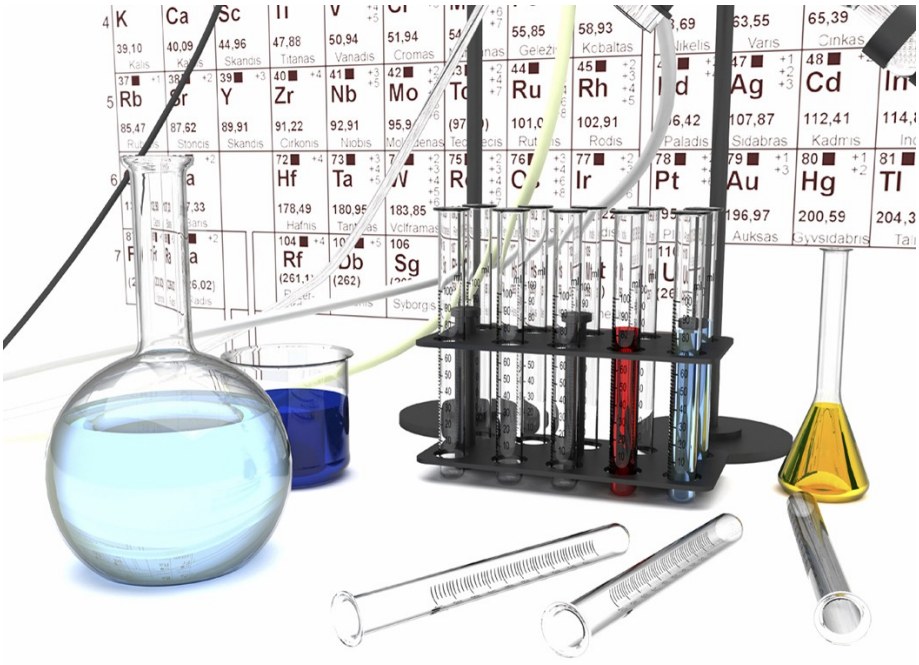

_____
_____
_____
_____
_____
_____

9. Who discovered your element? How was it discovered? (4 marks)

_____
_____
_____
_____
_____
_____
_____
_____

10. List the references used in your element research. (2 marks)

_____
_____
_____
_____
_____
_____
_____
_____
_____
_____
