Specialized Cells Worksheet **Name**_____ CB 13

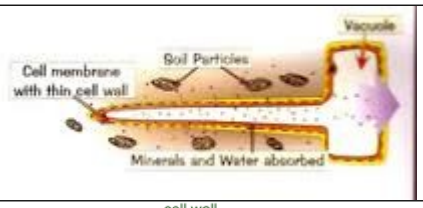

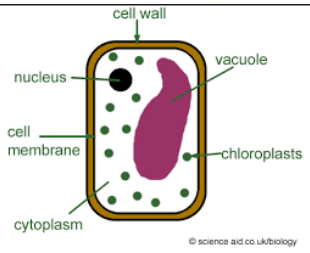

Many organisms are multi-cellular - they are made up of lots of cells, not just one! Many of these cells are specialized, working together to carry out the *life processes* (they work together as a team, supporting the organism). Specialized cells occur in both animals and plants…

Animal Cells

Animal Cell	Cell Diagram	Function	Specialization	Explain how each cell's specialization helps it carry out its function
Red blood cells		To carry oxygen	• Large surface area for oxygen • Hemoglobin which binds the oxygen	
Nerve cell		To carry nerve impulses to different parts of the body	• Long • Connections at each end • Can carry electrical signals	
Male reproductive cell		To reach the female cell in order to join with it	• Long tail for swimming • Head which is able to penetrate the female cell	

Plant Cells

Explain some of the specialized plant cells.

Plant Cell	Cell Diagram	Function	Specialization	Explain how each cell's specialization helps it carry out its function
Root hair cells		To absorb water and minerals	• Large surface area	
Leaf cell		To absorb sunlight (needed for photosynthesis)	• Large surface area • Many chloroplasts (containing chlorophyll, for photosynthesis)	

Cells "R"Us

These drawings show how WE are made of CELLS!

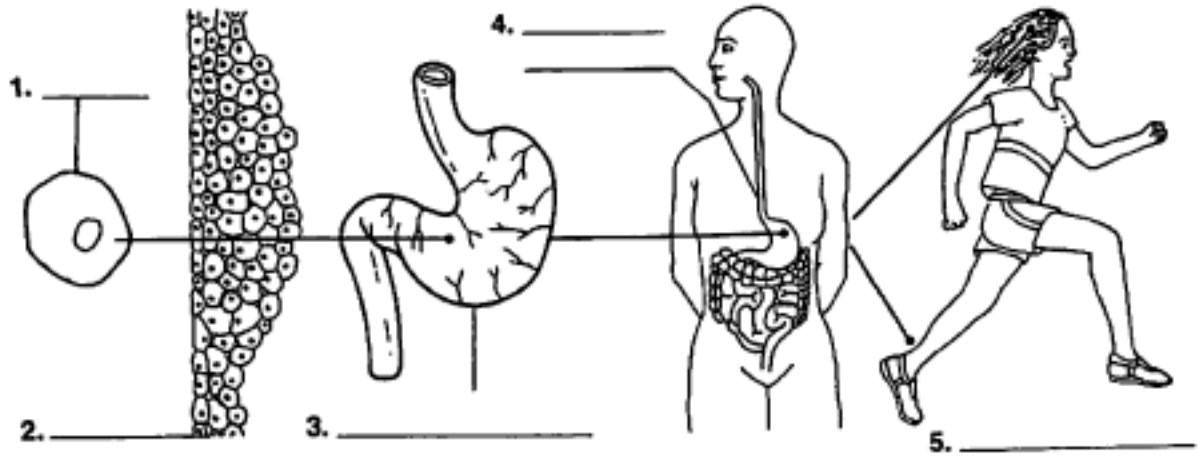

Directions:

Match the correct word from the WORD LIST below to the drawing 1-5.

Color each drawing the CORRECT color noted under the word.

Use your colored drawings and the same words to fill in the blanks for the questions.

Word List:	organism	organ system	organ	tissue	cell
color to use	(purple)	(blue)	(green)	(yellow)	(red)

1. A _____ is the smallest unit of structure and function of a living thing.
2. An example of a cell is a _____ cell.
3. A tissue is made of a group of similar _____working together.
4. An example of a tissue is _____ tissue.
5. An organ is made of different _____ working together to do a special job.
6. An example of an organ is the _____.
7. An organ system is made of many _____ working together to do a special job.
8. An example of an organ system is the _____ system.
9. An _____is a living thing that carries out its own life activities.
10. An example of an organism is _____.

Challenges:

The largest organ in the human body is the _____

Human skin is an example of a _____ because_____
