Atoms in Elements

Use p.250 – 251 to complete

Property	Monatomic Elements	Molecular Elements	Elements in Lattices	
			Metallic	Non-Metallic
Definition				
Number of atoms				
Examples				

1. Give the number of atoms in the following molecular elements:

   a) Oxygen _____
   b) Phosphorus _____
   c) Sulfur _____
   d) Carbon _____
   e) Hydrogen _____
   f) Nitrogen _____

2. Describe the bonds in metallic lattices

_____

3. What properties does this give metallic lattices?

_____

4. Describe the bonds in non-metallic lattices

_____

5. What properties does this give non-metallic lattices?

_____
