The History of Cell Discovery

Name_____

Directions:

- Use Internet research to connect the left column to its most relevant match in the right column. The left column may have more than 1 letter in each blank
- Add 3 bullets of your own to complete the right column

_____ Schleiden

_____ Schwann

_____ Virchow

_____ Hooke

_____ Leeuwenhoek

_____ Cell Theory

_____ Brown

A. “Plants are made of units called cells. Growth is a result of the production of new cells.”

B. “By applying Schleiden’s cell theory to the evolution of life, I found a better understanding of the nature of life.”

C. “I could not believe my eyes as I examined the basic unit of life in plants, cells!”

D. “Cells arise from other cells and not from non-living tissue. In fact, injury to cells is the basis of disease.”

E. “My primitive microscopes allow me to examine animalcules, tiny protozoa.”

F. “My research with plants has allowed me to identify the nucleus as a constant in all plant cells.”

G. “Cork is made of cells.”

H. “I am the father of the modern day microscope.”

I. “All cells come from preexisting cells. All living things are made of cells. A cell is the basic unit needed to carry on life processes.”
