Common Elements

The elements all have different symbols. Symbols may be either one letter (written as capitals) or two (the first letter is a capital and the second letter is always lower-case).

Aluminium	Al
Barium	Ba
Bromine	Br
Calcium	Ca
Carbon	C
Chlorine	Cl
Copper	Cu
Flourine	F
Gold	Au
Hydrogen	H
Iodine	I
Iron	Fe
Lead	Pb
Magnesium	Mg
Manganese	Mn
Mercury	Hg
Nickel	Ni
Nitrogen	N
Oxygen	O
Potassium	K
Silver	Ag
Sodium	Na
Sulphur	S
Tin	Sn
Uranium	U
Zinc	Zn

You must try and learn the above elements and their symbols. You will be quizzed on them regularly.
