Chemical Formula worksheet 4

Name:_____

Complete the following table, being sure that the total charge on the resulting compound is zero. The first two are done for you.

Aluminium chloride $AlCl_3$	Zinc phosphate $Zn_3(PO_4)_2$	Copper II chloride	Lithium oxide	Sodium sulfide	Calcium hydroxide	Barium fluoride
Potassium chloride	Aluminium sulfate	Nickel sulfide	Silver chloride	Lead II nitrate	Tin IV oxide	Iron III oxide
Zinc hydroxide	Calcium phosphate	Copper II sulfate	Lead II chloride	Chromium chloride	Potassium iodide	Calcium fluoride
Sodium hydroxide	Ammonium sulfide	Iron III sulfide	Nickel sulfate	Lead II iodide	Chlorine gas	Hydrogen fluoride
Lithium sulfide	Magnesium hydrogen sulfate	Aluminium chloride	Hydrogen bromide	Sodium hydroxide	Zinc bromide	Silver sulfide
Oxygen gas	Sodium hydrogen carbonate	Cobalt chloride	Sodium carbonate	Potassium iodide	Nitrogen gas	Nitrogen gas
Copper II sulfate	Magnesium carbonate	Iron III phosphate	Hydrogen sulfate	Aluminium fluoride	Sodium sulfate	Lithium bromide
Calcium chloride	Magnesium phosphate	Manganese IV oxide	Nickel sulfate	Silver hydroxide	Zinc sulfate	Hydrogen ethanoate
Nitrogen dioxide	Ammonia gas	Neon gas	Sulfur dioxide	Carbon dioxide	Methane gas	Silicon dioxide
