Words to find:

accelerate, air resistance, balanced, elastic, equal, fluid, friction, gas, gravity, kilograms, motion, newtons, opposite, rest, unbalanced, upthrust.

Use the words you find to complete this passage:

_____ is the force that attracts all matter.
_____and _____ will oppose most forces and slow objects down.
_____ is the force equal to the weight of the _____ or _____ displaced by an object.
_____ are the units of force.
_____ are the units of mass.
If forces are _____ then an object will stay at _____ or stay in _____
If forces are _____ then an object will _____
_____ materials can store energy that can be used to create a force.
Every force has an _____ and _____ reaction.
