ACTIVITY 1.4 Rules and signs

SKILLS
- Communicating
- Personal and social competence

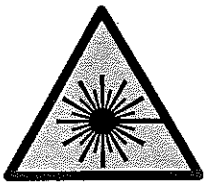

The laboratory is full of specialised Science equipment; consequently we need rules to allow us to keep both ourselves and our equipment safe. We use many different signs in Science to identify objects and to warn of certain hazards and prevent dangerous situations from arising.

1 Examine the signs shown in Figure 1.5.

a 

b 

c 

d 

e 

f 

g 

h 

i 

j 

k 

Fig 1.5

Match each symbol with the correct name in the table below.

Name	Symbol	Name	Symbol
Flammable substance		Laser hazard	
Biohazard		Slippery substance	
Unknown substance		First aid box	
No eating or drinking		Eye shower	
No smoking		No naked flames	
Fire extinguisher			

2 The signs shown in Figure 1.5 are grouped in three rows for a reason. What is it?

_____

_____

3 Devise a set of five rules to be followed to remain safe in the Science laboratory. For each rule, explain why the rule needs to be followed.

a _____

_____

b _____

_____

c _____

_____

d _____

_____

e _____

_____

4 Design your own sign to illustrate one of the laboratory rules not covered by the signs so far. Use an appropriate border shape and colour scheme, and justify your choice.
