ACTIVITY 1.3 Scientific equipment

SKILLS
- Literacy
- Communicating
- Processing and analysing data and information

A Science laboratory has many different pieces of equipment. In Science we use simplified drawings to show what equipment is used and how it is to be set up. The drawing shows the object as a simple two-dimensional (2D) cut-away sketch.

1 Use your general knowledge and textbook to write out the names of the pieces of laboratory equipment shown in Figure 1.3.

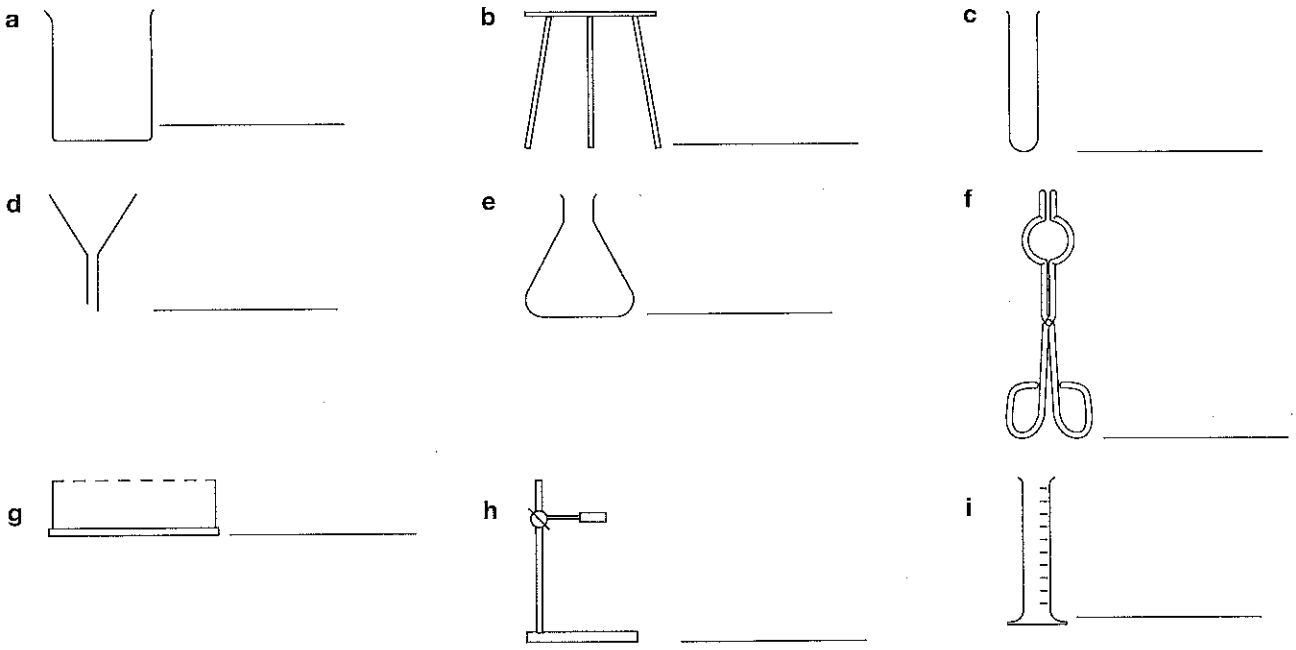

Fig 1.3

2 Complete the following table of information.

Science equipment	Use
Beaker	Holds liquids, chemicals, etc.
Filter funnel	
Conical flask	
Test tube	
Test tube holder	
Measuring cylinder	
Bunsen burner	
Test tube rack	

3 Examine each diagram in Figure 1.4. Explain what is taking place in each. Use the correct names for all the equipment, and draw a scientific diagram for each.
