Energy Efficiency Web Exploration **Name** _____

1. **Ecological footprint** https://www.footprintcalculator.org/ (you need to enter your school email address to start)

When is your personal Earth Overshoot Day? _____

How many Earths would we need if everyone lived like you? _____

2. **Energy food calculator** http://education.abc.net.au/res/i/L11801/index.html

How much energy do you need for:

- Resting _____
- Lightly Active _____
- Active _____
- Very Active _____

Write down the list of things that you could eat in one day without going over your daily intake.

_____

_____

_____

_____

3. **Energy efficient house** http://www.scootle.edu.au/ec/viewing/L895/L895/index.html#

Fill in the blanks as you work through the tutorial:

Intro: Heat always flows from a _____ area to a _____ area

Air leaks: Air can escape through _____
