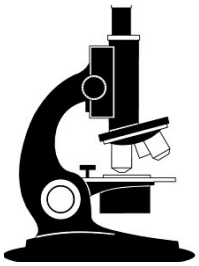
“Microscopes”



Use the information from p.20 – 21 Pearson Skills - Science and Inquiry 1 to complete the following table:

Type of Microscope	Number of lenses	Magnification	Dimension of image
Compound		x40 – x1000	
Light/Monocular			
Binocular			2 Dimension
Stereo			
Electron	Use a beam of electrons. 3 lenses		

Answer the following questions about microscopes and magnification:

1. Calculate the magnification of the following microscopes:

Ocular lens magnification	**Objective lens magnification**	**Total magnification**
x10	x4	
x10	x10	
x10	x40	
x10	x100	

2. What is the name of the lens closest to your eye?

_____

3. What colour images do electron microscopes produce

_____

4. Name one use of stereo microscopes

_____

_____

_____
