Name _____ Date _____
Class _____

Notes: Thermal Energy Transfer

Thermal energy always moves from _____ to _____.

There are three ways heat can be transferred:

1. _____
2. _____
3. _____

	Definition	Demonstration	Examples
Conduction	The transfer of energy between _____ _____ _ _____ _		1) 2) 3)
Convection	The transfer of energy by the _____ _____ ____ _____. A fluid can be a _____ or a _____.		1) 2) 3)

Radiation	The transfer of heat energy through _____ _____ in the form of _____ _____.		1) 2) 3)
