Animal or Plant Cell Model

Your task is to create either a plant or animal cell model from the materials you have at home. You will need to label the following organelles on your cell model and you will need to be able to answer some questions about what these organelles do.

Cell membrane	*Cytoplasm*	*Mitochondria*
Lysosome	*Ribosome*	*Nucleus*
Golgi apparatus	*Smooth ER*	*Rough ER*
Nuclear membrane	*Vacuole*	*Chloroplast*
Golgi body	*Cell wall*	

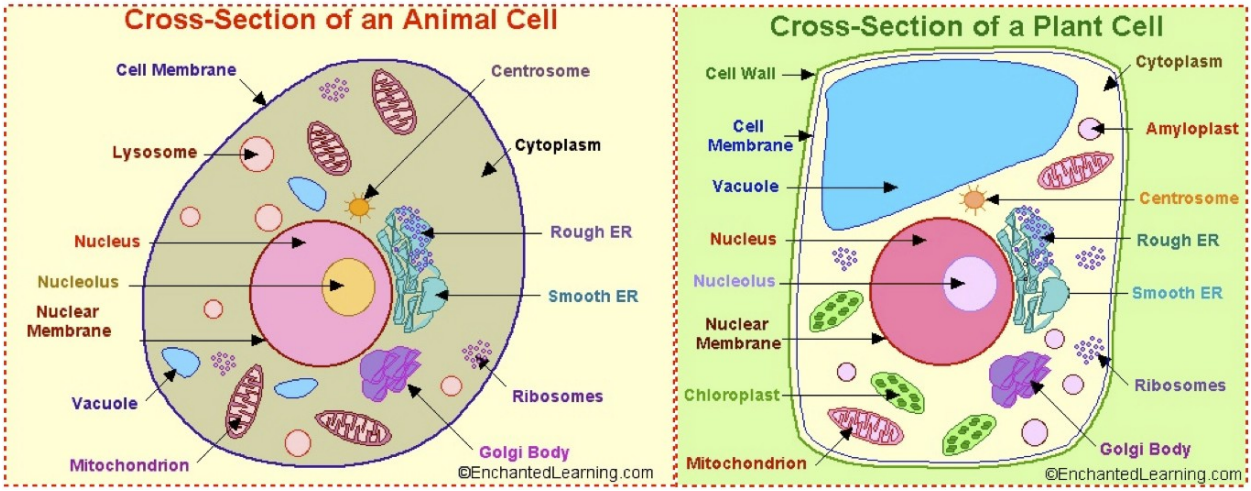

DUE DATE: _____

NOTES:
