

Closely examine the rock cycle schematic above. It correctly describes the key processes in the rock cycle using arrows and key words.

Your task is to write a description of the rock cycle that contains the same information as the schematic above. You should end up with one paragraph which includes

- **T** - a topic sentence,
- **E** – an explanation/elaboration (if needed),
- **E** – the evidence (key steps in the cycle), and
- **L** - a link (in this case it will be link back to the start, a summation for the paragraph)
