Plant Cell Assignment

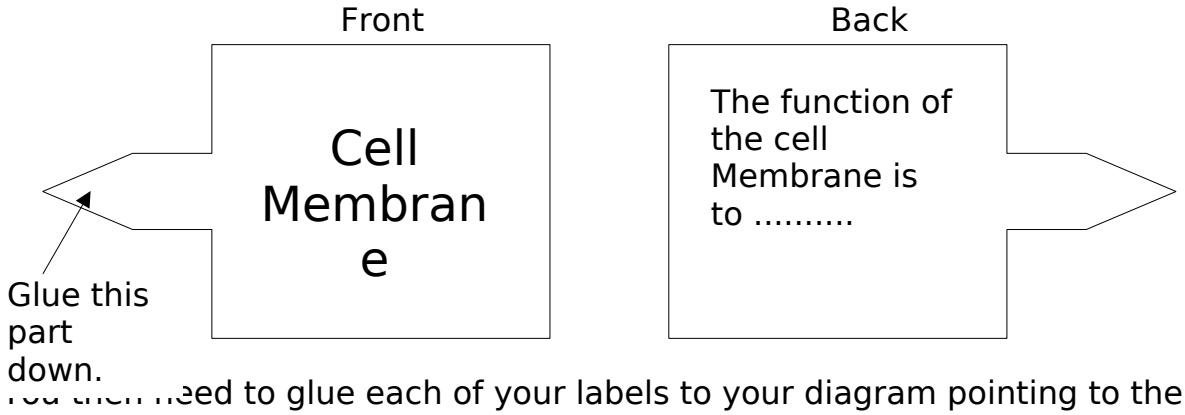
Name: _____

Part 1
Your task is to draw a diagram of a plant cell and add labels for each part of the cell.

In your diagram you need to show the

- Cell membrane
- Nucleus
- Cytoplasm
- Cell wall
- Vacuole
- Chloroplasts
- Mitochondria

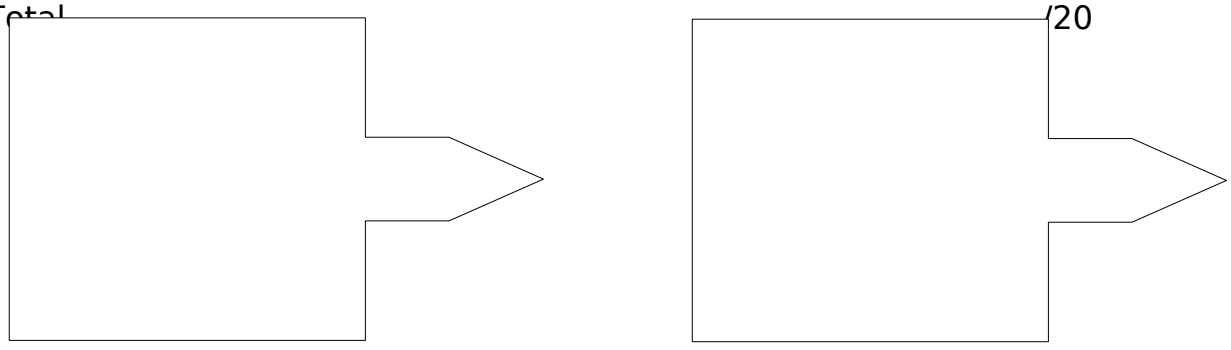
Your labels need to state the name of the plant cell part as well as its function. Cut out your labels and write the name of the cell structure on one side. On the other side of the label you need to write a short description of the function of the cell structure.

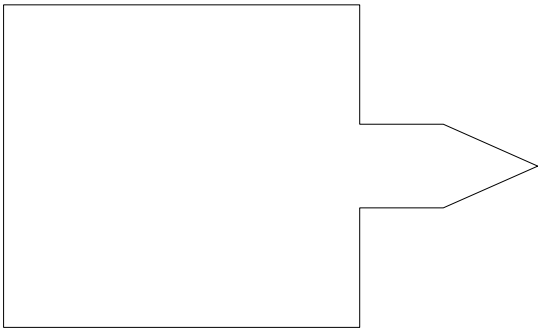


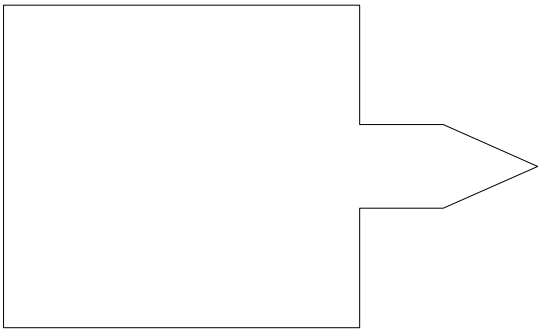
You then need to glue each of your labels to your diagram pointing to the correct cell structure.

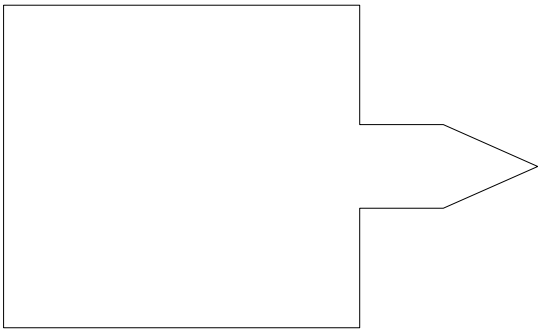
Part 2
On the **back** of your cell diagram, you need to write an answer the following:

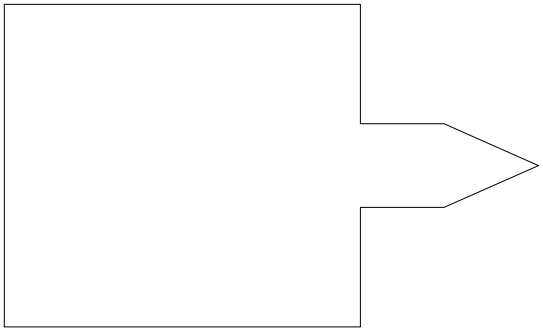
Describe the two main structural differences between plant cells and animal cells and how these differences are important to plants.

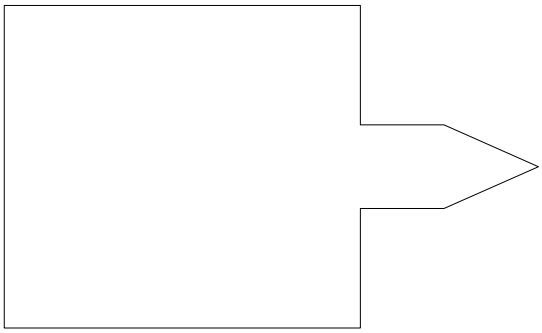
Marking key:


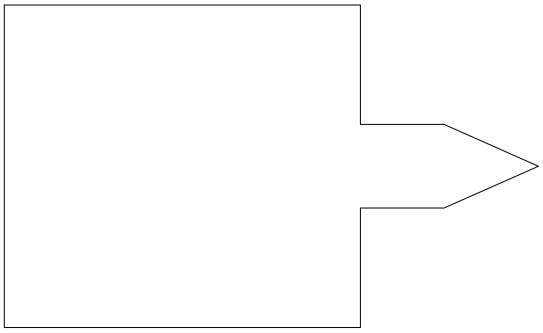


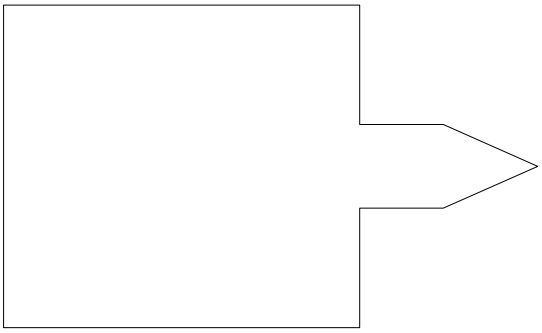


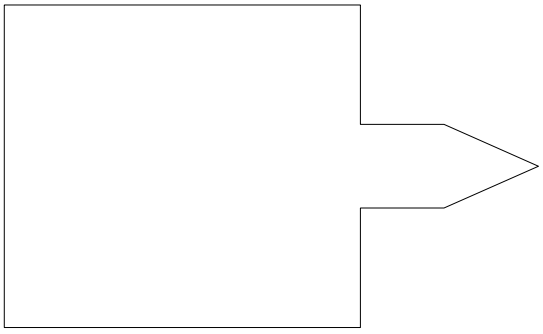












Neatly drawn cell diagram	/2
Correctly labelled cell structures	/7
Description of the function of each cell structure	/7
Answer to question	/4
Total	/20
