Classification of Organisms

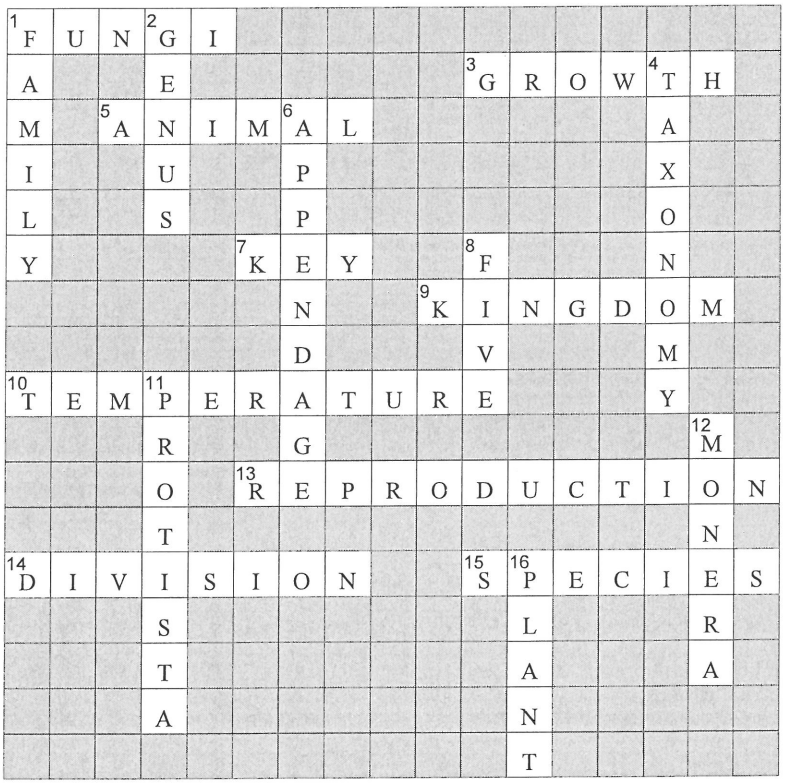

Across

1. Kingdom containing mushrooms.[5]
3. Increase in cell number and mass.[6]
5. Kingdom containing humans.[6]
7. Used for identification.[3]
9. Group of organisms that are least similar.[7]
10. Warmth of an organism is its body _____.[11]
13. Making of offspring.[12]
14. Another name for phylum in plants.[8]
15. Group of organisms that are most alike.[7]

Down

1. Kingdom, Phylum, Class, Order, _____, Genus, Species.[6]
2. Homo is the _____ name for humans.[5]
4. System of classification using structural characteristics.[8]
6. Another name for a leg.[9]
8. Number of kingdoms.[4]
11. Kingdom containing more complex micro-organisms.[8]
12. Kingdom containing simplest micro-organisms.[6]
16. Kingdom containing organisms that photosynthesise.[5]
