Symbols of Ions

- Cover the ion symbols in the right hand column with a sheet of paper.
- Write the symbol for each ion in the rightmost empty column.
- Uncover the ion symbols and check your answers.
- Repeat this process until you have filled the whole sheet.

Hydrogen													H^+
Calcium													Ca^{2+}
Sodium													Na^+
Chloride													Cl^-
Oxide													O^-
Aluminium													Al^{3+}
Hydroxide													OH^-
Bromide													Br^-
Potassium													K^+
Lead													Pb^{2+}
Zinc													Zn^{2+}
Sulphate													SO_4^{2-}
Phosphate													PO_4^{3-}
Silver													Ag^+
Iron (III)													Fe^{3+}
Carbonate													CO_3^{2-}
Iodide													I^-
Lithium													Li^+
Copper (II)													Cu^{2+}
Manganese													Mn^{2+}
Chromium													Cr^{3+}
Barium													Ba^{2+}
Ammonium													NH_4^+
Iron (II)													Fe^{2+}
Sulphide													S^{2-}
Nitrate													NO_3^-
Nickel													Ni^{2+}
Fluorine													F^-
Magnesium													Mg^{2+}
