Writing Equations

Change the following word equations into chemical equations.

1. Magnesium + Oxygen gas → Magnesium oxide

2. Carbon + Oxygen gas → Carbon dioxide

3. Methane + Oxygen gas → Carbon dioxide + Water

4. Hydrochloric acid + Zinc → Zinc chloride + Hydrogen gas

5. Sulphuric acid + Sodium → Sodium sulphate + Hydrogen gas

6. Hydrogen gas + Oxygen gas → Water

7. Silver nitrate + Magnesium chloride → Silver chloride + Magnesium nitrate

8. Iron sulphide + Oxygen gas → Iron oxide + Sulphur dioxide

9. Copper hydroxide + Carbon dioxide → Copper carbonate + Water

10. Zinc + Silver bromide → Zinc bromide + Silver

11. Calcium carbonate + Hydrochloric acid → Calcium chloride + Carbon dioxide + Water

12. Sodium hydroxide + Iron nitrate → Iron hydroxide + Sodium nitrate

13. Calcium + Water → Calcium hydroxide + Hydrogen gas

14. Nitric acid + Potassium hydroxide → Potassium nitrate + Water

15. Aluminium + Silver nitrate → Aluminium nitrate + Silver
