Common Chemical Reactions Name _____

| Combustion (and Flammability) | Photosynthesis |
| --- | --- |
| Respiration | Corrosion |

Classify the following as either Combustion, Photosynthesis, Respiration or Corrosion

1. A mouse breathing _____
2. Lighting a match _____
3. Coal power station _____
4. Grass growing _____
5. Rust _____
6. Yeast producing carbon dioxide and making bread rise _____
7. Copper turning green when exposed to the elements _____
8. An organism which has chlorophyll in it _____
