General Properties of the Periodic Table

1. The Periodic Table is a table that groups elements according to certain physical properties or chemical properties.

2. The elements are arranged in order of **increasing proton number (atomic number)**.

3. A **HORIZONAL** row of elements is known as a **Period**.
   Across a period, the element changes from **metal** character to **non-metal** character.
   Elements on left hand side of Periodic Table are _____.
   Elements on right hand side of Periodic Table are _____.

4. A **VERTICAL** row of elements is known as a **Group**.

5. Hydrogen and Helium are in the same **Period 1**.
