Human Evolution Unit 3.4

Who are we?

Kingdom	
Phylum	
Class	
Order	
Family	
Genus	
Species	

What makes us a primate?

Characteristic	Why do we have this characteristic?

The family tree:

Includes –

Adaptations to bipedalism

Adaptation to the skeleton	How does this help?
Foramen magnum / Skull	
Vertebral column	
Pelvis	
Femur	
Knee	
Foot	

The ancestors

Human Evolution Unit 3.4

Australopithecine

Homo habilis

Homo erectus

Homo ergaster

Homo heidelbergensis

Homo neanderthalensis

Homo sapiens

Out of Africa principle:

Trends to look for in our ancestors
