Musical Instruments Library Assignment

You will have two periods with the laptops to complete the research for this task. Your research is to be presented as a poster suitable for use in a primary music classroom. You will need to hand in your notes as part of your assessment.

For your chosen instrument, you need to

1. Describe the instrument, including its size, shape, materials it is made from and what musical family it belongs to.
2. Explain how your instrument produces sound (source of vibrations).
3. Explain how the frequency (pitch) can be changed.
4. Explain how the amplitude (volume) can be changed.
5. Describe the history of your instrument, including where it originated, when it originated and how it has changed over time.
6. Any interesting facts you find during your research (eg. famous players etc)

You may choose from, but are not limited to, the list of instruments below.

Violin	Flute	Trumpet	Glockenspiel
Viola	Oboe	Trombone	Xylophone
Cello	Clarinet	French horn	Piano
Double bass	Bassoon	Tuba	Timpani
Guitar	Saxophone	Harp
