Online Heat Experiment

Experiment Time!

Search these sites until you find an experiment we can do to learn about heat (or cold!). Use the form your teacher provides to record the:

- Question this will answer
- Materials
- Directions
- Remember -- it has to be about heat!

Look Here:
Kinetic City Experiments
Exploratorium At-Home Experiments
Exploratorium "Snacks"
Here are some questions and resources to answer them. Write your notes on paper your teacher provides you.
What is convection?
What is heat?
How does heat conduct (travel) through different materials?
Choose another question related to heat to report on
Your question:
Answer:
Resource: How Things Work
