LIGHT – Study notes

Complete the following sentences and tasks to make a set of study notes on LIGHT and electromagnetic radiation

DEFINITIONS:

Click to write is just one form of Click to write radiation.

Click to write is made up of Click to write different colours.

The colours of visible light are (in order) from Click to write.

The law of Click to write states that the angle of Click to write is equal to the angle of Click to write

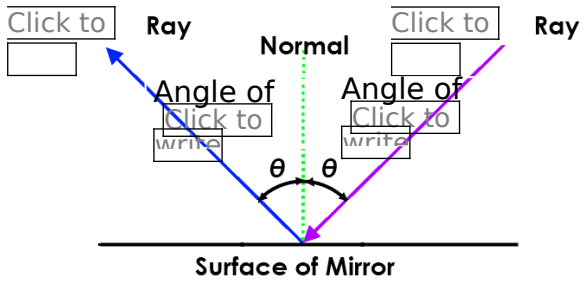

Click to write occurs when light travels at an angle through a Click to write object.

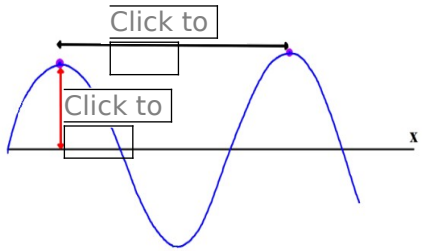

The electromagnetic spectrum is made of, in order from lowest to highest frequency; Click to write waves, Click to write waves, Click to write waves, Click to write light, Click to write waves, Click to write waves, and Click to write waves.

The Click to write of light in space is 300,000 Click to write

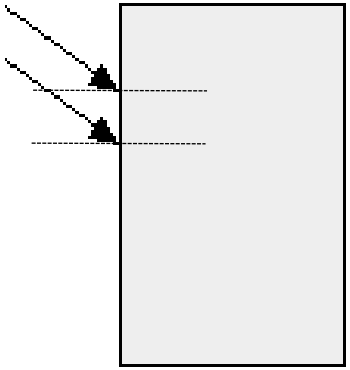

WORDS TO USE		
Electromagnetic	incident	reflection
Light	Light	Orange
Yellow	Seven	x-ray
Transparent	Green	frequency
Refraction	Violet	microwave
Reflection	Radio	Red
Infra-red	ultra-violet	indigo
Km/hr	Gamma ray	Incident
	Speed	blue
	reflected	Reflection
		Amplitude

Complete the labels for this diagrams:

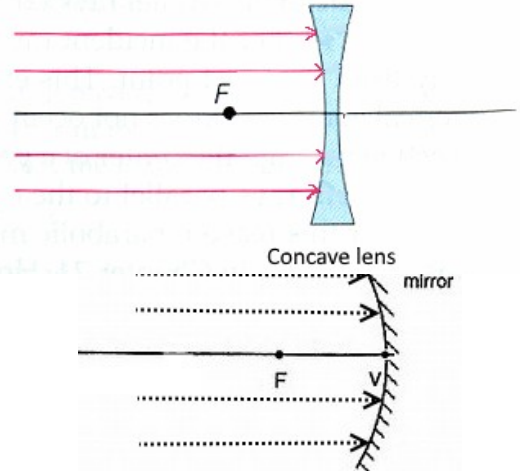

Use drawing tools to complete the rays of light on this diagram and draw in the angle of incidence and angle of refraction

Use drawing tools to complete the rays of light on these
