Meiosis Video

http://www.watchknowlearn.org/Video.aspx?VideoID=56202&CategoryID=7580

1. How many chromosomes do your body cells have?

_____

(1 mark)

2. Which cells don't have 46 chromosomes?

_____

_____

_____

(1 mark)

3. How many chromosomes do they have?

_____

_____

_____

(1 mark)

4. Why do they have this many?

_____

_____

_____

(1 mark)

5. What is the other name for egg and sperm cells?

_____

_____

_____

(1 mark)

6. Why is meiosis called reduction division?

_____

_____

_____

(1 mark)

7. In meiosis how do the new cells compare to the original?

_____

_____
_____

(1 mark)

8. “Mitosis makes us _____”

(1 mark)

9. “Meiosis makes cells that are _____ from one another”

(1 mark)

10. What are cells doing in interphase?

_____

_____
_____

(1 mark)

11. How many times does PMAT happen in meiosis?

_____

(1 mark)

12. What does homologous mean?

_____

_____
_____

(1 mark)

13. Describe crossing over

_____

_____
_____

(1 mark)

14. What has happened by telophase I?

_____

_____
_____

(1 mark)

15. How many cells are there by telophase II?

_____

_____
_____

(1 mark)

16. How many chromosomes in an sperm cell?

_____

_____
_____

(1 mark)

17. What can cause genetic disorders?

_____

_____
_____

(1 mark)
