1. Label the following diagram showing the amplitude, frequency and wavelength.

- Give the frequency. (Don't forget the units!)
  - 2 Hz
- What does the amplitude show?
  - How loud the sound is
- What does the frequency show?
  - The pitch of the sound

2. Complete the following examples.

		
A loud, low pitched sound.	A soft, high pitched sound.	A loud, high pitched sound fading.
What is the frequency?	What is the frequency?	What is the frequency?
