Atom Model

Your element is _____.

You will need

- One Styrofoam ball
- Plasticine (three different colours)
- Pipe cleaners
- Toothpicks

Choose a colour to be your *protons*. Make small balls (the same number as the *protons* in your element) and stick them into the Styrofoam ball with toothpicks.

Choose another colour to be your *neutrons*. Make small balls (the same number as the *neutrons* in your element) and stick them into the Styrofoam ball with toothpicks.

Choose a third colour to be your *electrons*. Make small balls (the same number as the *electrons* in your element) and stick them into the Styrofoam ball with pipecleaners.
