6E-WS3 **CLASSIFYING TRANSPARENT, TRANSLUCENT AND OPAQUE OBJECTS**

Aim: *To be able to correctly identify a variety of transparent, translucent and opaque objects*

Write down your own definitions for:

Transparent: .....

.....

Translucent: .....

.....

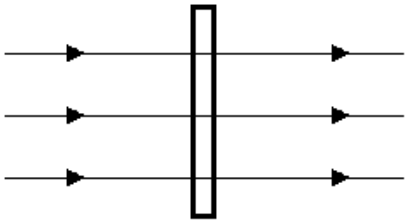
Opaque: .....

.....

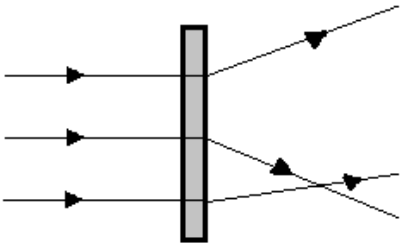
- **Look around the room and classify as many objects as you can find into the following categories**

Transparent	Translucent	Opaque

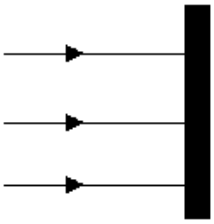
6E-WS3 CLASSIFYING TRANSPARENT, TRANSLUCENT AND OPAQUE OBJECTS



Transparent:
Light travels straight through



Translucent:
Light passes through but is scattered in random directions



Opaque:
Light does not pass through, it is either reflected or absorbed
