

Narrogin Senior High School Name: _____

Year 10 Science Due: _____

DNA Research

Part 1: In class
As a class, brainstorm the kind of questions that people might have about DNA.

Part 2: Individually
Each student needs to select 5 to 10 questions that they will research.

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

A. Make a point form summary to answer the questions, collect diagrams and keep a list of references.

B. While you are researching, write down 10 unfamiliar words, then find their meaning (keep references) and write a definition in your own words.

C. Use the information you have collected to make **one** of the following

- a webpage of FAQs (offline)
- an information brochure for high school students
- a childrens story or book
- a letter to householders requesting donations to the "gene bank" foundation

You will need to hand in

- ☐ **your *hand written* point form summary**
- ☐ **your bibliography**
- ☐ **your glossary of definitions**
- ☐ **webpage/brochure/story/letter**
